Hart's Global Biofuels Center to Exhibit at National Biofuels Conference in San Antonio

HOUSTON, TEXAS (February 1, 2007) - - - As part of the National Biodiesel Board's (NBB) National Biofuels Conference and Expo Feb. 4-7 in San Antonio, Hart Energy Publishing and its Global Biofuels Center will not only be exhibiting, but also offering all attendees a significant Show Discount on subscriptions to *FUEL Magazine*, Hart's newest premiere downstream magazine.

In addition, visitors to the Global Biofuels Center booth (Booth #715) will also be able to get a look at several studies and reports which are available for purchase, including a study recently completed by Informa Economics, OPIS and Hart Energy Consulting: *The North American Ethanol Outlook 2006-2015*, the most comprehensive study undertaken on the North American ethanol market. Previews are also available of the *Global Biofuels Outlook 2015*, *Ethanol & Biodiesel News*, and *FUEL Magazine*.

With a record number of biodiesel marketers, feedstock growers, fuel distributors, government leaders and biodiesel users attending the 2006 meeting, the NBB is planning a rich educational program featuring presentations and discussions from the industry's most influential leaders, in addition to an array of networking and social events and the always popular Expo with more than 125 booths showcasing the latest in biodiesel products and services.

Since 1981, Hart Energy Consulting has been a leading fuels and automotive industry consultant, providing quality research, information, market analysis, and outreach/educational services for the worldwide automotive, refining, reformulated gasoline, and alternative transportation fuels marketplace.

With its 30 industry experts speaking 15 different languages in nine global offices: Washington, D.C.; Houston; Detroit; Bismarck; Mexico City; Brussels; Bahrain; Moscow; and

-more-

Singapore; the Global Biofuels Center continuously monitors: Regional and country-specific production and consumption; Production technologies; Quality specifications and regulations; Taxation, incentives, subsidies, and related government policies; Trade and tariff changes; Vehicle technology and emissions; Air quality and climate change issues; and other government policy, legislation, and regulatory developments affecting the biofuels arena.

Hart Energy Consulting is a division of Hart Energy Publishing, whose market-leading publications include *Oil and Gas Investor*, *E&P*, *FUEL*, and *PipeLine & Gas Technology*. Hart also produces newsletters, custom publishing products, conferences, and unique multi-and single-client consulting services.
