Hart Energy Publishing Releases Inaugural Issue of *FUEL* Magazine

Houston, Texas (October 20, 2006) - - - Hart Energy Publishing has published the inaugural issue of *FUEL* Magazine, which combines the substantial resources of Hart Energy Publishing and its International Fuel Quality Center and Global Biofuels Center. *FUEL* focuses on the most important global topics related to refining, transportation, finance & investment, sustainability, and public policy developments.

According to Kristine Klavers, publisher, "*FUEL* not only enhances Hart's leadership position in the downstream sector of the energy industry, but also proves once again how Hart remains poised to react quickly to changes in the marketplace."

Readers of *FUEL* include top refinery and auto industry executives, finance and investment leaders, and public policy decision-makers. Exclusive editorial content in future issues include articles about Biodiesel, Catalysts, Clean Fuels Development, Doing Business in Asia, and Supply Chain Management.

FUEL's circulation is based on Hart's extensive global contacts and client lists, including global World Refining & Fuels Conference delegates, members of the International Fuel Quality Center, the Global Biofuels Center, and the World Refining & Fuels Service. In addition, *FUEL* will be distributed at the 2007 World Refining & Fuels Conferences in San Antonio, Brussels, Rio de Janeiro, Washington DC, and Beijing, as well as selected International Fuel Quality Center briefings worldwide in 2007.

Headquartered in Houston, with offices in New York, London, Washington, Brussels, Bahrain, and many other global cities, Hart Energy Publishing's market-leading publications include *Oil and Gas Investor*, *E&P*, and *PipeLine and Gas Technology*. Hart also produces newsletters, custom

publishing products, conferences, and unique multi- and single-client consulting services.

The International Fuel Quality Center (IFQC) is a subsidiary of Hart Energy Publishing, with a diverse array of informational products and consulting services including the World Refining & Fuels Services to 2020 (WRFS). IFQC is a globally acknowledged cooperation of 105 leading member companies representing the refining, automotive, policy makers and technology providers. Their mission is to keep members abreast of any developments regarding refining, automotive and fuel quality developments required for their planning & strategy management of refined products.
