OPEC invites Hart experts to present on biofuels

HOUSTON, TX (November 7, 2007) – Hart Energy Consulting experts Sandrine Dixson-Declève and Tammy Klein have been invited by the Organization of the Petroleum Exporting Countries (OPEC) to speak at their 7th Informal Meeting of High-Level Experts from OPEC and non-OPEC exporting countries, an established annual gathering among oil producers. This year, this meeting will take place on November 7-8 in Cairo, Egypt.

The meeting's agenda will be dedicated to oil market developments and medium-term outlook, as well as on biofuels. Hart's experts will deliver a general overview on global biofuels prospects and a specific presentation on policy developments in Europe, USA and other regions. The topic is timely and, more recently, on September 26-28, Hart expert Klein had presented at OLADE's international seminar on biofuels in San Salvador, El Salvador, where she joined speakers from the Ministry of Energy and Mines of Brazil, Peru, Columbia and other Latin American countries to discuss regulatory frameworks and technological advances in the world of biofuels.

Headquartered in Houston, with representation in New York, London, Washington, Brussels, Bahrain, Singapore, and many other international cities, Hart Energy Consulting is a division of Hart Energy Publishing. Hart Energy Publishing's market-leading publications include *Oil and Gas Investor*, *E&P*, *FUEL* and *PipeLine and Gas Technology*. Hart also produces newsletters, custom publishing products, conferences, and unique multi- and single-client consulting services. Hart Energy Consulting is a leading full-service information, analysis and communication resource for the worldwide energy industry. Multi-client consulting services already include the International Fuel Quality Center (IFQC), with over 100 members from industry and government, the Global Biofuels Center, World Refining & Fuels Services to 2020 (WRFS), and Government Affairs.
