your deal

The people you meet when you walk through our doors are the people who work your transaction. At Meagher, there are no salespeople, layers, or red tape. One principal is engaged in each and every transaction, so they can be close to the issues that matter and address them, quickly. Our specialists in land, engineering and accounting communicate directly with your potential buyers on a daily basis, providing them answers to evaluate the opportunity. At Meagher, A&D is all we do, and we have the experience to do it better.

Our door is open, let our people close your deal.

# WHO'S WHO

in E&P A&D 2012

Last year, some \$68 billion of U.S. upstream oil and gas asset transactions traded hands. Do you know who to call to enter the deal flow? We do.

The *Who's Who in E&P A&D* networking directory, compiled by the editors of *A&D Watch* and *Oil and Gas Investor*, connects you with the key A&D professionals engaged in oil and gas dealmaking. The oil and gas asset marketplace is a relational environment, and you have in your hands a critical tool for establishing such connections.

In this issue of the annual *Who's Who In E&P A&D*, more than 600 acquisition and divestiture professionals are profiled, featuring go-to personnel within E&P companies for buying and selling assets. They represent some 400 companies. Each of the individuals listed here have volunteered their information because they want to know when you want to buy or sell assets.

Since the last edition, former Petrohawk leaders Floyd Wilson and Steve Herod have formed Halcon Resources; Tim Duncan is plying the Gulf of Mexico again under Talos; Steve Pruett joined Concho Resources; Doug Brooks is now heading A&D at Forest Oil; Danny Wilson lands at G2X Energy; and Allen May has moved to Highmount.

Some familiar names are gone: Cordillera Energy has been absorbed by Apache, Dynamic Offshore is now part of SandRidge, Brigham Exploration goes to Statoil, and GeoResources merges with the Halcon juggernaut.

Who you know in the energy A&D space has a direct correlation to results. We try to streamline the connections with networking information that you volunteer. Continue to stay in touch with the *Who's Who in E&P A&D* directory online at A-Dcenter.com, where it is updated year-round. You can add a qualified listing or update your existing listing, even if you are not a subscriber. And if you know a counterpart not listed, let them know they are leaving cash on the table.

May all your deals be successful.

Bid Now!

# Times Have Changed

**There are substantially improved ways to buy and sell oil and gas properties.**

In the past, most oil and gas property oral auctions have been confined to a one-day event in a meeting room, limiting participation and exposure.

Buyers, why not submit your bid or proxy online, at your convenience, from any location?

Sellers, your negotiated and auction properties, from single wells to multiple fields, deserve to be marketed nationwide, increasing the competition and value for your assets through the 24/7 continuous Internet marketplace that EnergyNet.com provides. **No waiting for a live auction!**

- Continuous online auctions
- Rapid-cycle sealed bid sales
- Negotiated sales
- State and Federal lease sales
- FDIC properties

**Member FINRA**

Investments in oil and gas properties are speculative and involve substantial risk, including the possible loss of principal. These risks include commodity price fluctuations and unforeseen events that may affect oil and gas property values.

*EnergyNet registered / qualified bidders from all 50 states*
